# WELCOME

In a time of ecological and economic change, it is important to hold on to fundamental beliefs. For the Gulf titans international, the balance between economy and ecology on the one hand, and the needs of employees and company, on the other hand, is an important aspect in all business decisions, especially with regard to our corporate activities. Globalization combined with competitive concentration requires a clear vision and strong social skills to bridge the gap between business necessity and sustainability.

Since inception our focus was on the international trade of crude oil, refined oil products and other commodities. However, due to political and geographical changes in our main markets following the millennium, Gulf titans international took decision to rearrange itself to assure years of success to come.

Despite the growth, the personal and trustworthy contact with our business partners always remains our priority and we will always do our best to achieve a long-term and mutually satisfactory solution for each collaboration.

# GULFTITANS INTERNATIONAL

Was founded by leaderships as powerful mechanism to foster the flow of commodities supply. working in a strategic focused industries and markets helps the drive of the strategic vision of gulf titans international for the year 2030 of its stakeholders driving growth of the partners high-value and knowledge intensive sector.

stakeholders focus on providing the essential value and beyond to their clients supply chain in order to advance and overcome the obstacles for doing the international trade.

## **MISSION**

To trade our commodities efficiently and economically in an eco-friendly manner with due regard to safety, reliability, quality, enriching our clients expectations.

## **VISION**

To be the preferred one stop source for commodities around the globe to our clients

# THE BOARD

The board combine 20 years and more experience with trading commodities insights to enrich the trusted partners and clients in multi-diversed fields like oil and gas and Agricultural commodities, Minirals, and shipping. they believe that together they can create the right solution that is fit for their clients demands, indeed the board can grow and develop and make an impact on the future of their clients business's

they put client first, and reach higher. they put policies and procedures to do the right things for their clients so that they can maintain and grow their clients business, its a long term view that guides us to listen, adapt and remain resilient as the globe sprint forward.

# TOGETHER

We understand today's challenges. Our teams communicate and operate across continents, sharing the same values and business ethics no matter how complex the trade, problem or challenge.

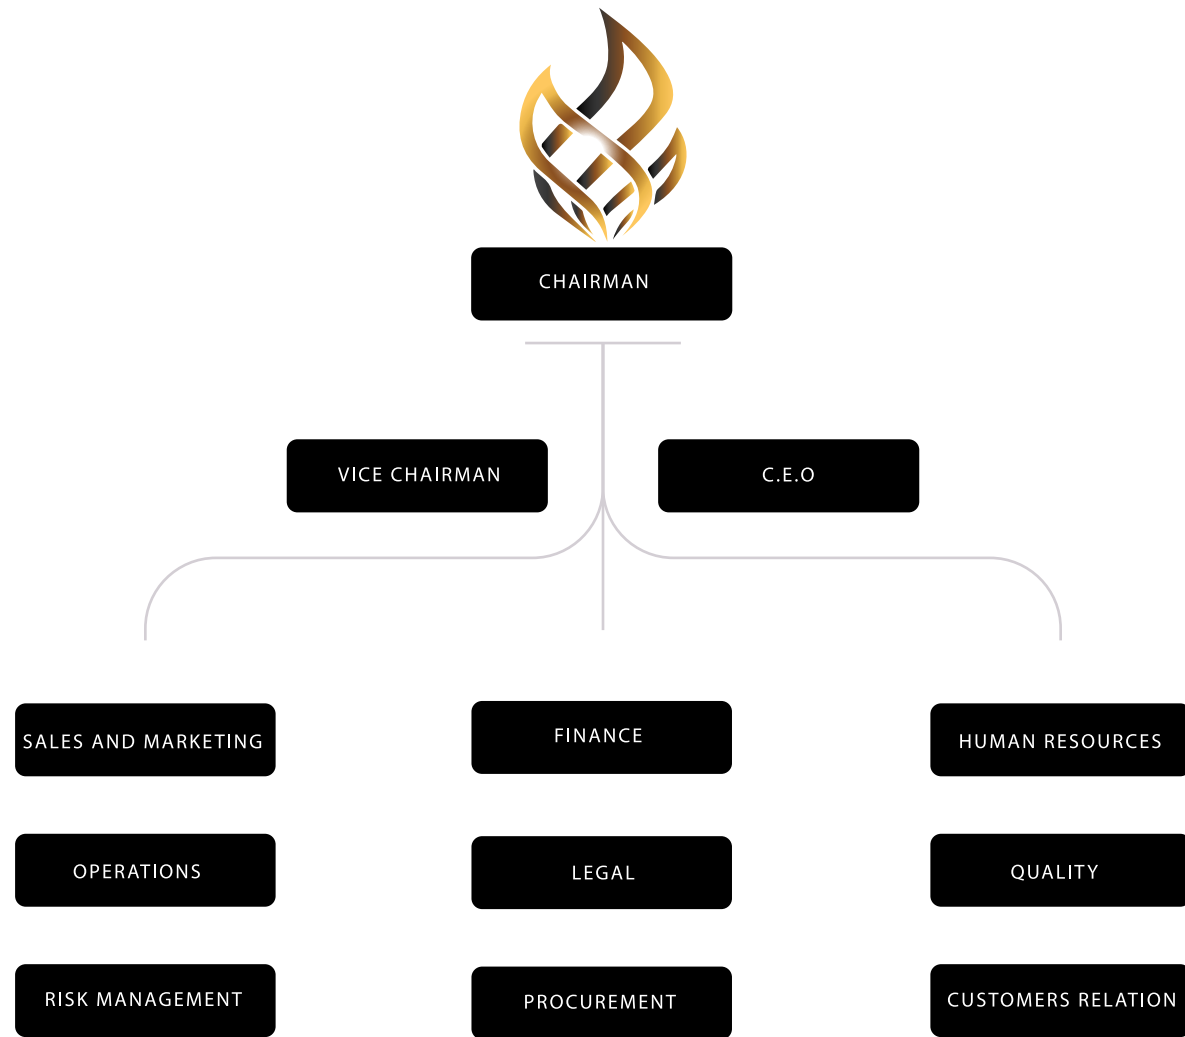

We believe that coming together is a beginning, and keeping together is a progress however working together is a success.

A hand is shown placing a wooden block with a single person icon on top of a pyramid of other wooden blocks. The pyramid consists of three blocks in the bottom row, two in the middle row, and one in the top row. Each block features a black silhouette of a person. The background is dark and out of focus.

# STRUCTURE

We understand how complex trade in commodities nowadays has become and for that we have Structured our Gulf titans departments in a way where it can always ontake the challenges of trading commodities internationally.

Gulf Titans International Organizational Structure

A large yellow tracked loader with a massive bucket is the central focus of the image. The bucket is lowered and filled with dark material, likely coal or ore. The loader is positioned on a dark, rocky terrain. In the background, another similar machine is visible, and the sky is a mix of purple, orange, and blue, suggesting a sunset or sunrise. The overall scene is industrial and rugged.

# BUSINESS MODEL

Our business model can make available spot, short and long term contracts to meet the specific demands of our clients in the international markets.

- We do direct involvement in mining and productions
- Quality Control Across the whole process
- Direct Management of inland logistics, stockpiling and barging

An offshore oil rig is silhouetted against a dramatic sunset sky. The rig's complex structure, including a tall derrick and various platforms, is visible. The sun is low on the horizon, creating a warm, golden glow that reflects on the dark, choppy water. A small ship is visible in the distance on the left side of the frame.

# ENERGY

Gulf titans international energy trading team has years of experience working with Governmented owned producers, Major oil traders, and energy multinationals. this has given us an insight into how to put together deals, passess risks and advice on the financing, transport and supply of oil and gas.
